NetCentric's CommonLook Section 508 Plug-In for Adobe Acrobat - This tool will help with the difficult task of making PDF documents S508 compliant. You can easily and quickly determine if your PDF documents meet all the applicable Section 508 requirements. Furthermore, the plug-in helps correct the most common accessibility problems, including the proper tagging of images, tables, forms and other non-textual objects. A compliance report makes it possible, for PDF authors, to get detailed information on the accessibility problems so they can be corrected.
